Introduction

The Southern Sudan Centre for Census, Statistics and Evaluation (SSCCSE) was established in 2004 with a mandate as the official statistical agency of the Government of Southern Sudan. In particular, under the provisions of the CPA and the Interim Constitution of Southern Sudan, SSCCSE was assigned the responsibility to conduct the 5th Sudan Population and Housing Census in 2008.

The Centre has been working on a number of reports. This current report presents the distribution of population of Southern Sudan by age by sex and by residence. The grouped population are inserted at the end of the age range. These distributions are presented by states. However, Table 1 presents the population distribution of Southern Sudan.
